

C4EO Excellence & Evidence Training Workshop 2011

Integration on a Shoestring & Supporting Families with
Multiple Problems

Welcome, Introductions & Outline for the Day

research in practice

social care
institute for excellence

Introducing C4EO

- Virtual – no expensive physical structure.
- Small administrative base at NCB, London.
- Working across England supporting all Local Authorities and their wider partners.

9 Themes

- Early Years
- Disability
- Child Poverty
- Safeguarding
- Vulnerable Children (LACYF)
- Youth
- Schools and Communities
- Families, Parents and Carers
- Early Intervention

From the sector, for the sector

We all need to understand better what really makes the difference to children's, young people's and families' outcomes – rooted in best available evidence.

Research

Data

Effective Local Practice

- **Reliable, trusted information** = accessible and attractive.
- **Improved dissemination of 'what works'.**
- **Working with and through the sector.**

Excellence and Evidence 2011: Doing things differently

In keeping with our commitment to respond to the needs of the sector we have undertaken a national consultation exercise, with DCS's, asking for guidance on emerging priorities for each region. As a result, we have created a training event specific to your region.

Excellence and Evidence 2011: Doing things differently

The Menu offered to DCS's in each region:

- Early Intervention
- Supporting Families with Multiple Problems
- Improving outcomes for Looked after Children and Children on the Edge of Care
- Integration on a Shoe String

Aims

Today's training workshop will look at the evidence base & what works across this theme.

By the end of the day you will:

- Be aware of the research evidence & have discussed the implications of this knowledge for strategic leadership
- Have explored examples of practice that makes the difference locally and considered the implications for your own practice

Aims (contd)

- Have had the opportunity to find out more about a specific topic through expert-led workshops
- Be aware of the C4EO cost effectiveness tool & its application to your work
- Have been able to capitalise on the opportunity to learn from colleagues across the theme by networking
